

Installation Manual Mobile Application - TechnoVE Connect

TechnoVE INC.

7804 rue Maurice-Guillemette
G9H 4Y7, Bécancour, Québec

Web : <https://technove.ca>

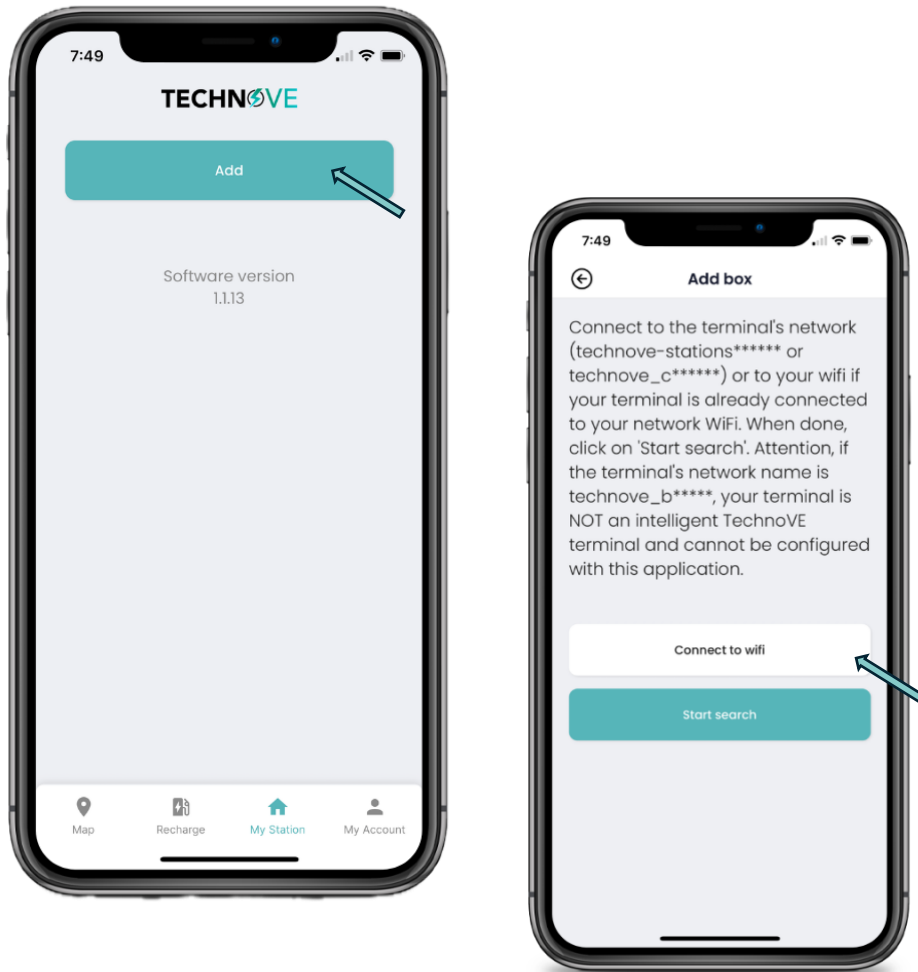

Phone : (819) 868 1907

Mail : info@technove.ca

1. Open your TechnoVE Connect app. Click the Add button, then the Connect to wifi button.

WARNING: if your terminal has already been connected to your own Wi-Fi network, and it no longer appears in the wifi of the device, use the button: Start search.

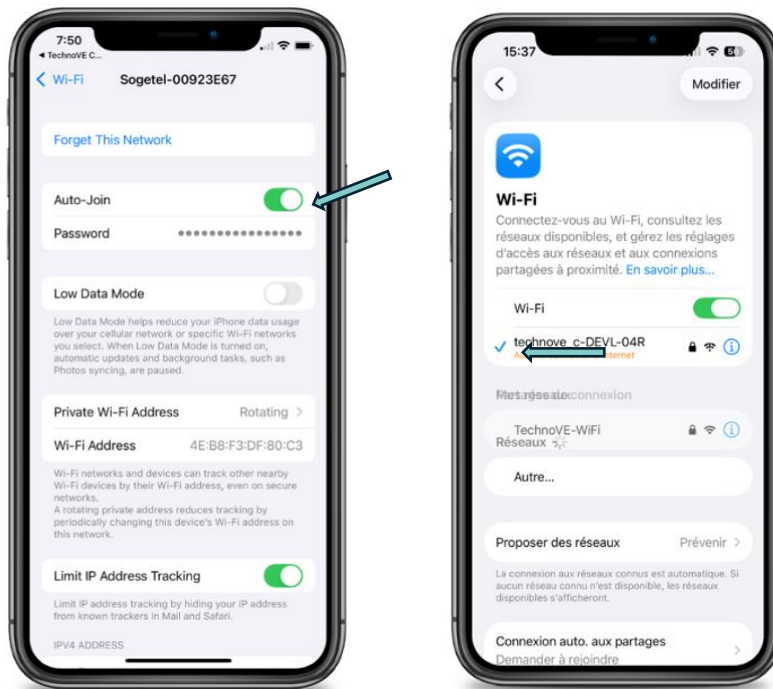

2. In your smart device Wi-Fi settings, disable the automatic connection to your personal network, then connect to your charging station's Wi-Fi network. The network name corresponds to your charging station serial number. (technove_station for models before 2025)

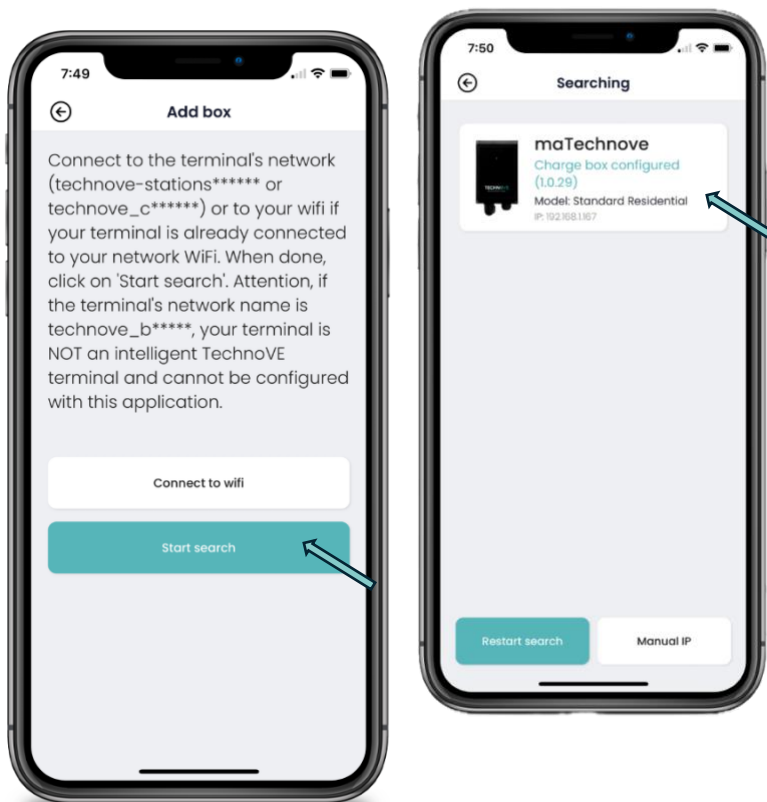

Password: abcde12345

3. Wait until the connection is established. It is normal for this to take a little time. If your device indicates that you will not be connected to the internet, this is also normal.
4. Once connected to the charging station, return to the application, then click the Start Search button. Once your charging station is found, select it.

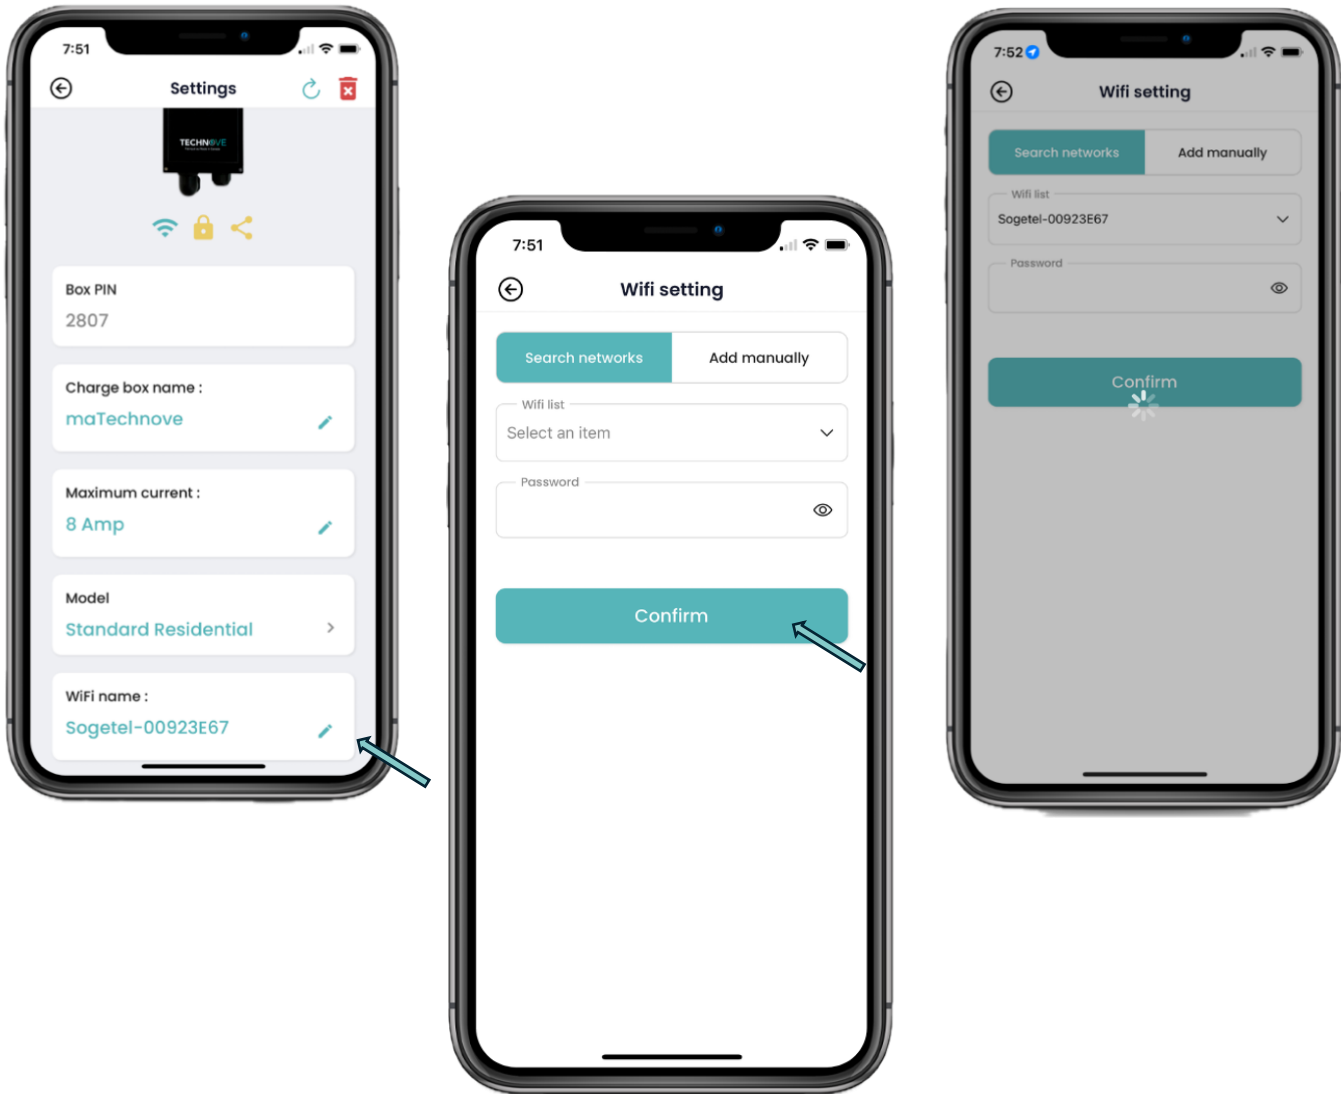

5. Enter the PIN available on the leaflet included in the charging station box.

6. Once on the home page, click on the blue rectangle representing your charging station.

- In the Wi-Fi Name section, click the pencil icon. From the list of Wi-Fi networks, select your personal network. Enter the corresponding password (your router password), then confirm.

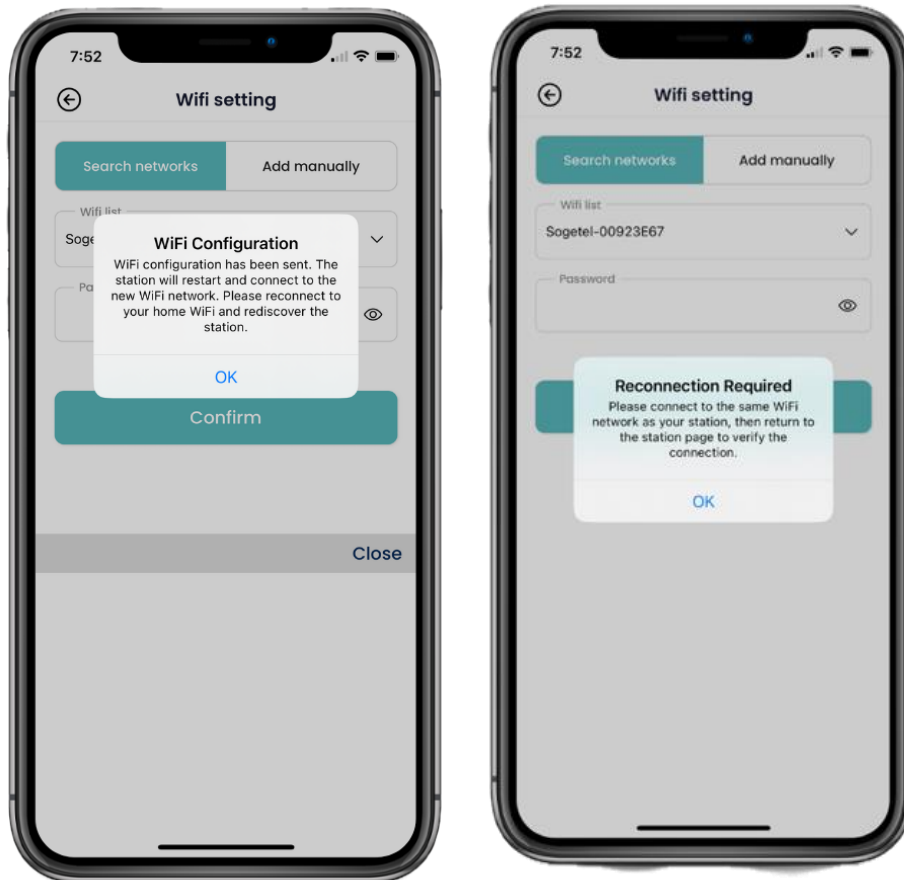

Warning: The charging station can only connect to the 2.4 GHz frequency.

If you are unsure about your Wi-Fi frequency, you can contact your internet provider to confirm it with them.

8. Wait for the configuration to finish, it may take several minutes.
 Back at reception, it is normal for the charging station to mention being out of reach. Wait a few moments.

Do not forget to reactivate the automatic connection to your own network.

Thank you for choosing TechnoVE charging stations!
Do not hesitate to contact us if you experience any issues.
